To Our Customers and Friends:

IT is with grateful remembrance of last season, with our best wishes for the present and bright hopes for the coming season that we extend to our friends and patrons our greetings, and take the greatest of pleasure in presenting you with this, our **Ninth Annual Catalog.**

At the present time there is a great deal of talk about lower prices, and it is without doubt justified in most cases. However, we have not raised, except in a very few instances, during the past five or six seasons, so we can see no reason why we should lower our prices now.

In comparing our prices with others, don't forget the fact that we are **actual growers** of everything that we list, and not just dealers.

No doubt you will notice that we do not issue a 'classy' catalog, but will venture to say that expensive printing and paper does not improve the **quality** of the stock offered—only the **price** of it.

Hoping that we may continue to enjoy your confidence and patronage we are,

Yours for more and better Flowers,

WHITE FLORAL COMPANY.

Read This—All Dahlia prices quoted are for field grown tubers, except where special mention of Plants is made. Both bulbs and plants are offered of those with a star. See page 1.

Read This Before You Order.

ORDER EARLY before the supply of many varieties is exhausted. Stock will be reserved and shipped the latter part of April, unless we are notified otherwise.

TERMS—Cash with order, or before shipment, by Money Order or Bank Draft, making all payable to name below. Stamps (5 or 2c) accepted on small order.

PREPAID—Everything in this catalog will be shipped, postpaid, anywhere in the U. S. at prices quoted.

SUBSTITUTION—We do not substitute unless asked to do so in the order, but would suggest naming a few as a second choice.

OUR GUARANTEE—Every bulb, tuber or plant we send out is guaranteed true-to-name and will, on sufficient proof, replace 2 for 1 the next season, any that blooms untrue. We also guarantee all to be alive and arrive in good condition, after this our responsibility ceases. Notify us at once in case anything is unsatisfactory or does not start to grow, after planted a reasonable time.

REFERENCE—U. S. National Bank, Portland, Ore.

NAME and ADDRESS—Please write your name and address very plain and address all letters, etc., to—

EXPLANATION—Capitals after descriptions signify the height: T, grows above 4 ft.; M, Medium; and D, under 3 ft. The letter e, suitable for exhibition; g, for garden; and c, for cut flowers.

In Regard to all the Varieties of Dahlias Marked with a Star.

All the Dahlias in this catalog prefixed with a (*) can be supplied in the form of growing plants. Ready for delivery about May 10th to June 10th, at ONE-THIRD LESS than the price quoted for the dormant tubers.

Dahlia plants will give equal or better results than tubers, if given a little more care in their early growth. In our own Show Garden we have always used them whenever obtainable. This season we are much better prepared to grow them, and intend using them almost exclusively for our display plants. However, we do not recommend "plants" to the new beginner but will venture to say that they are preferred by practically all experienced growers and especially when prize-winning blooms are desired for the Fall Dahlia Shows. You will never know all about Dahlias before giving plants a fair trial.

Our experience and method of packing plants for shipment by parcel post, enables us to guarantee that they will arrive at their destination in perfect condition. They can be sent with safety for a distance requiring from three to four days in transit.

Cultural Directions will be sent with each and every order for dahlias.

WHITE'S FOR WINNING 1921 WONDERS

VIOLET BEAUTY (No. 71)

A most wonderful exhibition flower of a shade quite difficult to describe accurately. Very pleasing violet-purple, suffused with claret and cerise. Each petal has the appearance of being outlined with silver. The flowers are from 7 to 9 inches in diameter, of the full-petaled peony-flowered type, with broad wavy petals; the center is almost hidden by small petals that curl and twist, making a flower of very artistic formation. Although the stems are long and of sufficient strength to hold the average dahlia rigidly erect, the blooms of this new creation are so large and heavy that, under certain conditions, they are unable to do so, after flowers are fully developed. However, the size, color and formation are so rare that it is always irresistible to everyone. It is an early and free bloomer; dwarf habit. Strong tubers, \$2.50

SPECIAL—One tuber each of above for \$6.00

PRIDE OF PORTLAND (No. 150 A)

A magnificent variety that is worthy of a place in the most up to date collection, where something really gorgeous is desired. Quite similar to the ever popular "Geisha" in color, but the yellow is brighter and the red is of a richer shade. It is more double than that old favorite, in fact, some blooms are almost of the decorative type. Without a doubt one of the largest dahlias we have ever grown, with stems in proportion, that hold the giant blooms well above the foliage, never failing to attract the attention of everyone. It is a healthy, robust grower, producing the immense blooms early, freely and constantly all season.

Plants in May, \$1.50. Strong tubers, \$2.50.

A few roots and plants of this wonderful new dahlia were sent out 1st season, and we have received nothing but praise for it. One customer, who grows a very select collection, says, "It stands out and above them all, and is far better than Geisha". We believe we have sufficient stock of strong tubers to supply the demand this season, but order early.

PHILENA (No. 150 G)

We have been striving for a dahlia having a perfect habit of growth and our conception of that ideal is attained in this attractive new peony-flowered variety. On account of its color and long, stout stems it was quite irresistible to all garden visitors. The large blooms are held rigidly erect and very freely produced. For the most part the color is an elegant, bright crimson, slightly streaked and heavily tipped with golden yellow, while the reverse of the petals is a mandarin orange, slightly penciled with red; a very odd and showy color combination. Quite lasting and effective as a cut flower; a vase of it was the center of attraction at a Dahlia Exhibit in Portland, last Fall. We did not intend introducing this creation till 1922, but because of insistent demand, we offer a limited number of strong field grown tubers at \$3.50

Strong plants, (ready May 15th.) \$2.00

See page 24 for Our Latest Geranium Creation, now offered for the first time.

WHITE'S WINNING WONDERS OF PREVIOUS INTRODUCTION

AUTUMN GLORY—An immense flower of the true peony flowered type. The color is hard to describe; distinct shade of **bronzy cinnamon**, burnished with **terra-cotta**. Some of the flowers have a broad stripe of rich amber color, running the full length of each petal. Strong, robust grower with less foliage than usual; very long, graceful stems and a free and constant bloomer, T. e. g. On account of the demand last season we offer for this Spring, **Strong plants (ready in May) \$1.00**

AUTUMN MARVEL—Color is a most beautiful pure, **golden buff**. The blooms are large and of the peony-flowered type, the outer petals recurving to the stem and the center almost hidden with small, curly petals. Upright, healthy grower; constant bloomer and extra long, stout stems, T. e. g. **\$1.60**

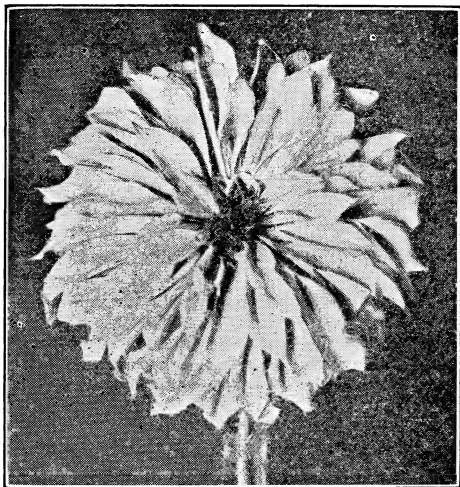

BYRON STREETER—Enormous decorative with slightly reflexed petals. Indescribable and fascinating shade of lilac purple, overlaid with a peculiar bluish sheen. Robust habit; flowers very erect on stout stems, M. e. c. **\$1.**

EPOCH — (*New Type*) —The forerunner of an entirely new form in the dahlia family, which will undoubtedly prove of great value as cut flowers. Similar to the collarette, but is larger and has from 3 to 6 rows of petals and between each row a collar. Petals are **bright carmine rose** with white collars. Grand, free flowering habit of growth, D. **.50**

Golden Autumn—A beautiful deep yellow peony dahlia. Ideal, upright habit with extra stout stems of great length, M. g. c. **.50**

***JACK LONDON**—Red decoratives are quite numerous, but no one could resist this, when seen growing in our Gardens. Strong, erect growth; stems are long and very stiff. The large blooms are held upright and the color is a distinct, **dazzling vermillion scarlet**, deepening in the center, T. e. g. c. **\$1.50**

LEAH — (Collarette)—Even visitors who were not admirers of this type had to stop and admire this gem. An extra large flower held erect on very stout stems. Deep crimson maroon, while the collar is white and maroon. Some flowers are heavily pencilled lilac. One of the most lasting when cut. D. **.30**

LUCILE WHYTE—A deep rosy lavender of distinct form; the narrow petals are slightly corrugated and reflexed. Blooms are above the average size and the long stems are quite erect. A great favorite with our visitors, M. A few **Roots at \$1.50. Plants in May, \$1.00.**

OREGON SUNSET—No description can give you an idea of the beauty of this gorgeously colored, full petaled, Peony Dahlia. Giant blooms of rich **golden yellow**, heavily suffused and dusted **bronzy crimson**. Distinct and irresistible combination of colors. Free flowering and a vigorous grower with long, stout stems. This season we have but a very few Tubers, **\$2 each. Growing Plants, \$1.25**

Orville A. Stevens—(P) Ideal garden dahlia of good size; free flowering on very strong, erect stems of sufficient length for cutting. Color is a distinct shade of light orange scarlet. Strong, upright habit with just enough foliage and blooms very freely, T. e. g. c. **.75**

PRIDE OF AUTUMN—Withdrawn until 1922.

Don't plant too early. Dahlias dislike to bloom during the hot, dry, midsummer weather.

Some New and Rare Varieties of Special Merit

The Dahlias offered below are Novelties of the highest quality, and can be recommended to anyone wishing something extra fine and different.

NOTE — This collection supplied in Plants Only, at the prices quoted

Peony-flowered Type

CITY OF PORTLAND—One of the grandest dahlias ever offered. The blooms are often 8 and 9 inches in diameter of very artistic form. Color is a clear, rich, deep yellow. An ideal cut-flower, having long, strong stems and good keeping qualities. Strong, vigorous growing plants produce flowers very freely. Each, \$2.50

HAIDA—An enormous flower of soft, creamy peach pink of beautiful form, with many small, curly petals around the center. Free bloomer; unequaled for exhibits, M.e.g. \$1.00

NIAGARA—Lovely, odd shade of soft wine-red. Immense flowers are produced freely and erectly on ideal, upright stems through the entire season. Formation of the blooms is unique, the tiny, curling petals around the center being very numerous, M.e.g.c. \$1.00

Hybrid Cactus Type

COLOSSAL PEACE—A most attractive shade of deep rose pink with light center and tips. Immense flower of massive form. Sometimes blooms with a slightly open center. Each, \$1.00

GLADYS SHERWOOD—A new pure white variety that is a real giant among dahlias; flowers 9 inches in diameter, without dis-budding. In addition to this it is free flowering and the stems are long, strong and erect. Each, \$3.00

HELEN DURNBAUGH—Exquisite blush pink, shading to white. Blooms medium to large and produced in greatest freedom all season on good stems; Very fine. Each, \$1.

LA FAVORITA—Grand new dahlia of distinct coloring. Beautiful brilliant salmon, shading darker in the center and lighter at tips. Of perfect form and carried erect on extra strong stems; ideal cut flower. \$1.50

MILTON EDWARDS—Enormous flowers, held very erect on long, rigid stems, high above the foliage. Color is quite distinct, odd shade of range-red. Long, claw-shaped petals that incurve and interlace; very free. Each, \$2.00

Giant Decorative Type

MILLIONAIRE—One of the largest dahlias in existence, with stout stems. Color is light lavender, shading to white in center. \$1.25

OSAM SHUDOW—A monstrous flower with heavy, loose petals of a delightful old-rose, tinted with lilac and shading to yellow in center. Strong grower and free bloomer with long, thick and heavy flower stems. No dahlia to compare with it in form. Ea, \$3.75

PATRICK O'MARA—The sensation of the Dahlia Show of the American Dahlia Society held in New York City last September. The flowers are 8 inches in diameter and borne on long, strong, erect stems. They are firmly set at right angles to the stems. The color is an unusually soft and pleasing shade of orange-buff, slightly tinged with rose. One of the most lasting cut-flower dahlias. Received American Dahlia Society's Gold Medal for best new variety for 1920. Each, \$5.00

PRINCESS PAT—Exceedingly large, perfectly formed blooms of a glorious shade of old rose, borne erect on perfect stems. Splendid habit of growth and good cut-flower. Each, \$1.75

RAINBOW—Old gold, heavily suffused with oriental red. An immense, well formed flower held perfectly erect on incomparable stems. Good bloomer; without doubt one of the best dahlias in cultivation, M. e. g. c. \$1.25

SNOWDRIFT—A very large, finely formed, white cactus, with good stem, and wonderful keeping quality. A novelty of special merit that is a great favorite everywhere, and can be highly recommended. \$1.50

THE GRIZZLY—A rare novelty of deep, rich crimson-maroon, on perfect stem. Of immense size and a prolific bloomer. Flowers are of very attractive formation and create a sensation wherever grown. Each, \$1.75

On very poor soil work in a little well-rotted manure or bone meal, but don't overdo it.

OTHER DAHLIAS OF OREGON ORIGIN

The Dahlias listed below were all originated in Oregon and we honestly believe they are the equal of varieties originating elsewhere. See Our Own Introductions on preceding pages.

ARMISTICE—A new pure white Peony dahlia of distinct form. Flowers are large, with usually four or more rows of fairly narrow petals and held rigidly erect on strong stems; strong grower and blooms freely, M.e.g.c. \$1.

GLADIOLI

THE CUT FLOWER PRE-EMINENT

The most beautiful and attractive of all summer flowering bulbs are the newer Gladioli. Such a rapid improvement has been made during the past few years, in the size, color and beauty of these flowers, that the result is wonderful.

If cut when the first buds open and allowed to develop indoors, every bud will open and the size and color will be more perfect than if left in the sun. The spikes will continue to open additional buds for a week or two weeks, according to the variety and conditions.

TYPE OF THE MODERN GLADIOLUS

5c. each; 50c., dozen; \$3.50 per 100

AMERICA—The Finest of all. One of the most popular and valuable varieties grown. Without doubt one of the easiest to grow. The color is a beautiful soft flesh pink, tinted with delicate lavender. Large, open flowers.

Attraction—Bright-carmine; white throat.

Black Beauty—Dark crimson maroon; fine.

Halley—Large open flower of a beautiful salmon pink. Without doubt one of the best.

Independence—Light flame scarlet with dark red throat. Tall and vigorous growth.

Mrs. Fran. King—One of the most attractive and popular Gladioli. A striking shade of light scarlet or flame color. Very large.

Velvet King—A most reliable rich red sort; large and early. Ideal for large beds.

CULTURE—You can plant a Gladiolus bulb in most any kind of soil and it will bloom, but attention to a few simple details will produce superior results. Sound healthy bulbs and a sunny situation is the most important. Successive plantings in the same place should be avoided when possible. Plant 3 to 5 inches apart and to a depth of 4 to 6 inches, depending on size of bulb and character of soil. May be planted as early as the end of March or as late as the middle of June. By planting at intervals during this time you will have flowers all season. Cultivate often until flower spikes appear, then if possible, cover the ground with a mulch and water thoroughly when in bloom. Dig in November (or sooner if foliage begins to ripen) on a sunny day if possible, so as to allow them to dry off well before storing in a cool, dry, frost-proof place. Cut off the tops close up to the bulb, as soon as dug.

Ornamental Ferns for Decoration of the Home

The following varieties of these most graceful and satisfactory of house plants are all of the *Nephrolepis* family, being quite hardy in character and easily grown.

Small plants 25c; Larger size only of the first three sorts at 50c.

BOSTON FERN—This is the original and well known type of the "Sword Fern." Of easiest culture and very largely grown.

OSTRICH PLUME—Habit of growth is like above, but the pinnae and fronds are divided, giving the plants a feathery appearance.

ROOSEVELT FERN—Resembles the "Boston," but produces more fronds, and the pinnae are undulated, giving a very wavy effect. One of the most satisfactory ferns.

TEDDY, JUNIOR—A dwarf form of the "Roosevelt." Neat, compact habit and very rapid grower.

N. Norwood—Similar to the Ostrich Plume, but of more beautiful, feathery appearance.

PALM, Kentia Belmoreana—Dark green foliage; inclined to a dwarf and spreading habit. Fine for house culture as they are quite hardy. Strong plants. Each, \$1.00

PALM, Cocos Weddelliana—Most graceful of all palms, with finely cut foliage of rich, deep green. Plants with 4 to 5 leaves. 75c

RUBBER PLANT (Ficus Elastica)—Succeeds well with ordinary care. Fine for the house. Each, \$1.00

UMBRELLA PLANT (Cyperus, Alternifolia)—Splendid house plant of very easy culture; resembles a palm; requires no special care, but keeping well watered. 20c

N. Smithii—This is the most fluffy of all in the list. Has the appearance of delicate lace.

ASPARAGUS FERNS

ASPARAGUS SPRENGERII (Emerald Feather)—A most valuable and easily grown, evergreen trailing plant for the house. Beautiful sprays of lovely green feathery foliage, which can be cut freely and used in bouquets, etc. Equally valuable as a house plant in winter for vases, baskets and porch boxes in summer. 10c, 25c & 50c

ASPARAGUS, Plumosus (Japanese Lace Fern)—A finer and more delicate plant than the Sprengeri, but hardy and easily grown. Nothing more delicate or attractive for the house than this. Each, 15c and 30c

DRACENA, Indivisa—This is the hardy variety used so extensively for the centers of vases, baskets, tubs, boxes, etc. Long, graceful, grass-like foliage of deep green. Will stand the full sun or shade. We have a fine lot of healthy plants in 5-inch pots at 75c, postpaid. Smaller sizes at 25c and 50c each.

Grevillea Robusta (Silk Oak)—Very popular fern-leaved pot plant and is generally used in the same way as the Dracenas (for tubs, vases etc.), having the appearance of small cedar-like trees. Grow easily and rapidly, standing much abuse and neglect. .25 & .50

New Single Geranium "Elizabeth White"

Now Offered to the Public for the First Time.

This new variety was originated by us in 1918, and has been greatly admired by every geranium lover. We have, to the extent of being called selfish, persistently refused to sell it to anyone, wishing to grow a stock large enough to be able to offer it at a reasonable price, to everybody at once. The color is the outstanding feature of this novelty and quite difficult to describe. It is a very bright and distinct rose-vermilion shade of red, with a very conspicuous pure white center. Extra large flowers of circular form; large clusters, borne well above the foliage on long, strong stalks. A very strong healthy grower. We have to offer strong plants (from 3 in. pots) in bud and bloom. Each, 50c.

MISCELLANEOUS FLOWERING PLANTS

Visit Our Gardens and See Them in Bloom.

1 block North of Peninsula Park

We wish to extend to all a hearty invitation to visit our Dahlia and Floral Gardens. Over 700 named varieties of Dahlias, including the best European and American Novelties, as well as many new Creations of our own origin not yet offered to the public, will be growing under most up-to-date methods, and will be at their best after the middle of August, and until a heavy frost. Large collection of the newer Gladioli, and various other flowers, will bloom in their respective seasons.

All flower lovers and especially Dahlia enthusiasts should try and see the Dahlias during September or early October, as we honestly believe it will be time well spent. And, you can also visit the Peninsular Park, Sunken Rose Gardens, and the new Auto Tourists' Park at the same time, as we are located just north of these ever increasingly popular places of amusement.

Take the Kenton car on Broadway. Get off at Portland Boulevard or at Dekum Ave., as we are located just between these two streets. Right on the car line — you can't miss it.

Are Our Trials Extensive?

After giving them thorough trial we have discarded over 1400 varieties of Dahlias during the past few years. *Draw your own conclusions.*

About planting time we always find we have more stock of some varieties than we care to plant. Send us \$1.00 any time before June 1st., and we will send postpaid, a named collection of extra good dahlias worth many times the amount, all labeled. All orders filled and shipped about May 15th. to 22nd., at which time we commence planting our gardens. *We do not say what this collection will consist of as we want it to be a real surprise to everyone.*
